Rock - Željko Bebek...

Željko Bebek

Željko Bebek – Početkom 1984. godine nakon što je njegov duet sa Zanom Nimani, pjesma "Jabuke i vino" postala veliki hit Bebek je počeo opet ozbiljnije razmišljati o solo karijeri. Takve ambicije podgrijavao je i autorski dvojac "Zane" Radovan i Kikamac koji su mu uradili najveći dio drugog solo albuma Mene tjera neki vrag. Kada je album izašao Bebek više nije bio član Bijelog dugmeta. Grupu Armija B je osnovao krajem 1985. i sa njom je snimio treći album. Gost u pjesmi "Široko nam toplo polje Glamočko" je Mladen Vojičić Tifa koji je napustio "Bijelo dugme". Nakon osrednjeg uspjeha i prekida rada Armije B činilo se da se Bebek koji je tada već razmjenio petu deceniju života polako povlači sa scene.

A onda je nakon skoro tri godine pauze uslijedio veliki povratak uz pomoć Zrinka Tutića koji je naumio da od Bebeka napravi pop zvijezdu. To je potvrdio sa čak dva albuma tokom 1989. godine, Niko više ne sanja i Pjevaj moj narode. Naredni albumi Karmin, pjesma i rakija i pogotovo A svemir miruje predstavljaju stagnaciju pa čak i pad kvaliteta. To je bio znak da je njegova saradnja sa Tutićem dala koliko je mogla dati. Album Gori svijet... ti ćeš ga ugasiti koji se pojavio u proljeće 1994. godine radio je sa Miroslavom Drljačom Rusom, nekada liderom ITD Banda sa kojim je već ranije sarađivao. Slična je situacija bila i sa narednim albumom Puca mi u glavi iz 1995. godine. Na njemu su dvije obrade: stari hit ITD Benda – "Lagano umirem u tvome sjećanju" i pjesma Bijelog dugmeta – "Na zadnjem sjedištu moga auta". Bebekova diskografska neaktivnost je prekinuta u proljeće 1999. kada se pojavio album S tobom i bez tebe. Naredne godine izašao je album Ošini po prašini.

Rado se 2005. godine priključio obnovi Bijelog dugmeta za tri koncerta u Sarajevu, Zagrebu i Beogradu i tada se moglo naslutiti kako bi se ta priča mogla i nastaviti. Kada je Bregović nije nastavio Bebek je sa ostala dva pjevača krenuo na koncerte širom svijeta.

Album Kad poljubac pomiješaš sa vinom je izašao krajem 2012. godine. U jesen 2017. godine pojavio novi studijski album Ono nešto naše. Uslijedila su dva albuma snimana na koncertima u Splitu i Zagrebu. S jeseni 2021. godine objavio je album Mali oblak ljubavi.

Željko Bebek At the outset of 1984, after his duet with Zana Nimani, the song "Jabuke i vino" became a huge hit and Bebek began to contemplate a solo career more seriously. Those ambitions were aided by the authors behind "Zane," Radovan and Kikamac who authored the majority of his second solo album, Mene tjera neki vrag. When the album was released, Bebek was no longer a member of Bijelo dugme. He formed the band Armija B towards the end of 1985 and recorded his third album with them. Having left Bijelo Dugme, Mladen Vojičić Tifa made a guest appearance in the song "Široko nam toplo polje Glamočko" ("Our Wide Open Glamoc Field"). After the mediocre success and the discontinuation of Army B, it seemed that Bebek, who had already entered the fifth decade of his life at that time, was slowly retiring from the scene.

And then, after a three-year break, he made a huge comeback with the help of Zrinko Tutić, who set his mind on making a pop star out of Bebek. He confirmed this by releasing two albums in 1989 - Niko više ne sanja (No One Dreams Anymore), and Pjevaj moj narode (Sing My People). The subsequent albums Karmin, pjesma i rakija (Lipstick, Song and Rakija), and especially, A svemir miruje (And the Universe is Still) marked a period of stagnation, and one might even say regression. This was a sign that the potential of his collaboration with Tutić has been exhausted. The album Gori svijet... ti ćeš ga ugasiti (The world is on fire.... you will put it out), released in the spring of 1994 was recorded in collaboration with Miroslav Drljača Rus, who was previously frontman of the ITD Band, and with whom he collaborated in the past. Similar collaboration happened with the next album Puca mi u glavi (My head is splitting), released in 1995. It contains two covers of: an old ITD Bend hit – "Lagano umirem u tvome sjećanju" ("I die slowly in your memory"), as well as a song by Bijelo dugme, "Na zadnjem sjedištu moga auta" ("On the Backseat of My Car"). A period of inactivity was interrupted in the spring of 1999 when Bebek's album S tobom i bez tebe (With you and Without You) was released. The following year, the album Ošini po prašini (Hit the Dust) was released.

He eagerly joined the Bijelo dugme 2005 reunion performing at three concerts in Sarajevo, Zagreb and Belgrade, giving an inkling of how the story might pan out. When Bregović pulled out, Bebek continued to tour the world with the other two lead singers.

The album Kad poljubac pomiješaš sa vinom (When you Mix a Kiss with Wine) was released at the end of 2012. In the autumn of 2017, a new studio album Ono nešto naše (That Something of Ours) appeared. Two more albums followed, recorded at concerts in Split and Zagreb. In the autumn of 2021 he released the album Mali oblak ljubavi (A Little Cloud of Love).

Amilla

Amilla – Sarajevska rock grupa koja je dobila ime po Amili Sulejmanović njihovoj vokalnoj solistkinji. Prije ove grupe pjevala je prateće vokale brojnim sarajevskim rock bandovima, a posebno je bila zapažena po vokalnim dionicama u pjesmi "Volim te još" grupe Valentino. Sredinom osamdesetih je bila u romantičnoj vezi sa Ipetom Ivandićem, bubnjarom Bijelog dugmet" i sa njim je i osnovala sastav Amilla. Treći ključni čovjek ove grupe bio je klavijaturista Damir Misirlić. On je napisao njihov prvi i jedini pravi hit "Kakav divan dan". Pjesma je na istoimenom debi albumu objavljenom 1985. godine.

Na albumu je okupljena impresivna ekipa gostiju. Gitare je na pjesmama "Jutro je već" i "Aladin" svirao Sead Zele Lipovača, Alen Islamović je gostovao na pjesmi "Vodi me iz ovog grada", a Mladen Vojičić Tifa na pjesmi "Prokleti psi". Nikša Bratoš je svirao gitare, saksofon i klarinet na pjesmama "Kakav divan dan", "Haj'mo na surf", "Vampir der Nacht" i "Nikad te nisam voljela". Glumac Nermin Tulić pojavljuje se u pjesmi "Aladin". Drugi i posljednji album Amille, Igre slobode, izašao je 1986. godine. Nije dao neke pjesme za sjećanje iako je opet tu bila impresivna ekipa. U radu na ovom albumu okupili su se pored Ipeta Ivandića Laza Ristovski, Senad Galijašević, Nikša Bratoš, Narcis Vučina i Zlatko Manojlović.

Amilla – Sarajevo rock band named after lead singer Amila Sulejmanović . Prior to joining this band, she used to sing back vocals for various rock bands in Sarajevo, her most notable appearance being in the song "Volim te još" ("I Still Love You") by Valentino. In the mid-eighties, she and Ipe Ivandić, the drummer from Bijelo dugme, were romantically linked, and the two formed Amilla together. The third key member of this group was its keyboard player Damir Misirlić. He authored their first and only real hit song "Kakav divan dan" ("What a Wonderful Day'). The song is featured on the eponymous debut album released in 1985.

The album features an impressive line-up of guest artists. The guitars on the songs "Jutro je već" (It's Already Morning") and "Aladin" were played by Sead Zele Lipovača, Alen Islamović made a guest appearance on the song "Vodi me iz ovog grada" ("Take Me Away from this Town"), and Mladen Vojičić Tifa was on the song "Prokleti psi" ("Damned Dogs"). Nikša Bratoš played the guitar, saxophone, and clarinet in the songs „Kakav divan dan", "Haj'mo na surf" ("Let's Surf"), "Vampir der Nacht", and "Nikad te nisam voljela" ("I Never Loved You"). Actor Nermin Tulić appears in the song "Aladin". Amilla's second and final album, Igre slobode (Games of Freedom) was released in 1986. There were no memorable songs on this album, even though once again it gathered an impressive ensemble of musicians. Ipe Ivandić, Laza Ristovski, Senad Galijašević, Nikša Bratoš, Narcis Vučina, and Zlatko Manojlović all contributed to the recording of this album.
